

The Necessity of Strong Roots

- We are living at a time which we probably never thought we would never experience so much fear and uncertainty in this beautiful world created by **GOD**.
- Being christian women we need to have **strong anchored roots**, so that we can not be carried away by every wind and doctrine.
- Daily we are faced with civil unrest, major floods washing away house and people, fires strong enough to destroy cities and towns, earthquakes, and one war after another. Then we have family members turning against each other **(one killing the other).**

How are we to survive with so much calamity going on?

Ephesians 3:17, reminds us that we should be established, rooted and ground in **LOVE**, so that when faced with any calamity we will be able to stand. If we are rooted and grounded we will not fear for we know **GOD** is in control.
